

Article 40
(Temporary residence for a purpose of scientific research – TR-7-3)

Additional to the evidence from Article 49 of the Law and Article 27 of this Rulebook, an alien shall support his/her application for approval or extension of temporary residence for a purpose of scientific research with:

- a) evidence on possession of higher educational qualification enabling him/her access to doctoral degree programs,
- b) evidence on possession of experience and knowledge related to the research project,
- c) agreement on visiting project with an organization for scientific researchers that was concluded prior to applying for temporary residence
- d) evidence that the scientific and research organization shall assume responsibility for the alien during the research, including his/her living expenses, accommodation, food, health insurance and return .
